In the claims:

Please amend claims 6,7 and 9 as follows:

- (Previously Presented) An orthodontic wire retainer, comprising
- a first metal wire for conforming to the posterior surface of a dental arch;
- a second metal wire for conforming to the anterior surface of the dental arch;
- a pair of third metal wires extending between the first metal wire and second metal wire;
- said third metal wires attached to said first and second metal wires to form an annular bridge providing a resilient support for teeth along the dental arch;
- a wire rest extending from said first wire for resting upon the top surface of the dental arch, said wire rest spaced from the end of the first wire.
- 2. (Previously Presented) The orthodontic wire retainer of claim 1, further comprising a wire clasp.
- 3. (Previously Presented) The orthodontic wire retainer of claim 2, wherein said wire clasp is W-shaped.
- 4. (Previously Presented) The orthodontic wire retainer of claim 1, wherein said wire rest is L-shaped.
- 5. (Previously Presented) The orthodontic wire retainer of claim 1, wherein said wire rest has a first section attached to said first wire and extending toward said second wire.
 - 6. (Currently Amended) The orthodontic wire retainer of

claim 5, wherein said wire rest has a second section attached to said first second section and extending toward said third wire.

- 7. (Currently Amended) The orthodontic wire retainer of claim 1, further comprising
- a second wire rest extending from said first wire for resting upon the top surface of the dental arch, said <u>second</u> wire rest spaced from the end of the first wire.
- 8. (Previously Presented) The orthodontic wire retainer of claim 7, wherein said second wire rest has a first section attached to said first wire and extending toward said second wire.
- 9. (Currently Amended) The orthodontic wire retainer of claim 8, wherein said second wire rest has a second section attached to said first <u>second section</u> and extending toward said third wire.
- 10. (Previously Presented) The orthodontic wire retainer of claim 7, wherein said second wire rest is L-shaped.
